Dispensing Solutions and Accessories

Fluid Movement is Our Business

We design and support Chemical Distribution and dispense equipment from the Dock, to the Wafer, to Collection and Disposal

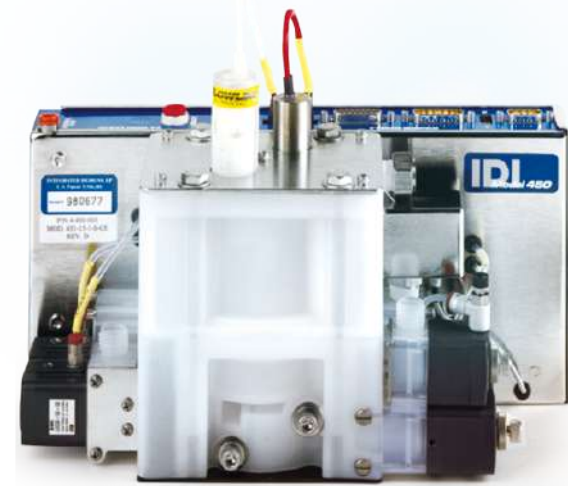

M610 (pictured)/M650 High Viscosity Photoresist dispense.

300-30,000 cp,
Used for high viscosity photoresist
and polyimide applications.
Single output variable rate.

M450/M550 Pressure on Demand Dispense Unit

0-300 cp, M450
Used for photoresist.
M550 used for SOG. Single
output variable Flow rate.

M7000 Series Positive Displacement dispense unit

0-3000 cp, (Based on configuration)
Used for photoresist.
Used for Photoresist
1 output variable rate.

M300/310 Pressure on Demand Dispense unit

0-300 cp,
Used for photo-resist, solvent,
and developer. Integrated Source
Switching. Up to three outputs with
constant flow rate.

Digital Valves

0-100 cp,
Can be interfaced to any pump
doing low viscosity dispense.
Used to improve repeatability
of the dispense system.

M5000 Positive Displacement dispense unit.

0-3000 cp, (Based on configuration)
Used for photoresist.
1 output variable rate

Accessories

Integrated Designs offers a full line of accessories to support dispense operation. Custom bottle caps, Reservoir systems, storage solutions, etc. We also provide, repair, rebuild and upgrade services on our dispense units.

Pump Reconditioning Service

Our Quality Pump Refurbishment Service has brought "Peace of Mind" to our customers for over 30 years. We provide our customers with the security that comes from:

- ✓ Repair and Refurbishment services by the original Manufacturer or your IDI or Cybor pump.
- ✓ Original Factory Parts
- ✓ Systems Tested to Original Factory Specifications
- ✓ Six Month Factory Warranty
